Promise Dexter Kaparadza

Administrative Virtual Assistant | Project Coordination | AI Workflows | WordPress
Harare, Zimbabwe | promisedexterkaparadza@gmail.com | +263 776 768 932 | www.linkedin.com/in/promise-kaparadza-93b70a20b

PROFESSIONAL SUMMARY

A remote Administrative Virtual Assistant with experience supporting customers, managing CRM records, coordinating orders and deliveries, and handling follow-ups across travel, sales, and technology businesses. I handled 200+ client interactions a week and kept organized records in Google Sheets and CRM systems. I'm working through the Google Project Management Certificate on Coursera and putting it into practice hands-on. I also build simple websites with WordPress and AI tools, and set up workflow automations with n8n, Make, and Zapier for things like lead capture and follow-up notifications. Available immediately for full-time remote opportunities.

PROFESSIONAL EXPERIENCE

Remote Virtual Assistant and Client Operations Coordinator February 2026 – June 2026
Skylux Travel, Trevolution Group | Remote, serving North American clients

- Researched flights, compared fares and built multi-leg itineraries for clients, and brought in a supervisor when a request needed extra expertise.
- Handled client calls, emails and follow-ups on reservations, schedule changes and rebookings, working with airline partners on ticketing.
- Kept lead and pipeline records current in the CRM and Google Sheets so no follow-up was missed.
- Booked and confirmed client appointments across time zones using Zoom, Google Meet and Google Calendar.

Remote Sales Representative November 2025 – January 2026
Tribal Warranty Holdings | Remote

- Handled 200+ lead and customer conversations a week by phone, answering enquiries and explaining products and services.
- Logged every contact in the CRM and Google Sheets, and set up a structured call disposition report to track outcomes.
- Improved follow-up efficiency by approximately 30% and supported a rise in bookings of around 25% through consistent, organised follow-up.

Administrative and Sales Support May 2023 – November 2025
Salma Technology | Harare, Zimbabwe

- Processed customer orders for laptops and related products, coordinated dispatch and delivery, and updated customers on progress.
- Maintained inventory and product records, price lists and sales documentation.
- Managed front-desk duties, visitor coordination, phone and email correspondence, scheduling and data entry.
- Answered product and repair enquiries, and logged and escalated customer complaints.

Administrative Support and Logistics Coordinator April 2020 – November 2022
Mutual Construction | Harare, Zimbabwe

- Prepared and filed administrative documents, kept stock records and tracked deliveries.
- Communicated with suppliers and clients to coordinate orders and day-to-day logistics.
- Helped prepare tender documents and supported daily office operations.

SKILLS AND TOOLS

Administrative Support: document management, recordkeeping, data entry, filing, order processing and tracking, task prioritisation, time management

Project Coordination: scheduling and timelines, task and deadline tracking, follow-up management, stakeholder communication, progress and status reporting, Asana, Trello and Google Sheets trackers
